

Jane Moran

Partner + Chief Learning Officer

EMNL, B.A.Com, RPCC

Jane is co-founder of Noesis Learning. Drawing on her experience building brain-based talent enablement frameworks in multiple industries, Jane has the cultural and operational savvy to distill scientific research into simple and relevant human interaction tools. She specializes in the design, operationalization and integration of leadership and change programming that integrates into complex workplace environments, providing practical support to leaders facing organization-wide transformation.

Jane is an Executive Coach with 20 years' experience coaching leaders at senior levels, from Fortune 500 companies to government agencies and non-profit organizations, spanning Canada, the US, Australia, England and Asia.

A dynamic though leader and curriculum architect, Jane's passion is the science of leadership. Her vast experience brings impactful change enablement strategy to organizations to disrupt the way people think and behave in highly complex environments.

As a published speaker with a degree in Communication and an Executive Master's Degree in the Neuroscience of Leadership, Jane's repertoire of insights, approaches and content spur busy, intelligent people into inspired action at an enterprise level. Her practical approaches transform leader behaviors so people can drive change, accelerate collaboration and innovation, while fostering psychological safety for employees. The result is a socially intelligent and resilient workplace environment, recalibrated for success.
